[www.fascetscanada.com](http://www.fascetscanada.com)

*You will learn...*

- **what FASD is and how it impacts the brain,**
- **how to reduce or eliminate the likelihood of challenging behaviours,**
- **information about overlapping diagnoses and how this informs systems, and**
- **how to develop individualized, person-centred accommodations that lead to success!**

Presented by Nancy Hall, Lead Facilitator + Co-Founder of Fascets Canada: East

Nancy has worked as an FASD trainer and consultant for the past nine years. She has presented across Ontario and the United States at many local, national and international conferences. In addition, Nancy has co-authored a research paper on Effective Practices for the support of people with FASD and has sat as a lead member of the FASD Ontario Network of Expertise for eight years. Most recently, Nancy has completed an intensive mentorship with Diane Malbin, receiving a Mastery Trainer Certificate in the delivery of the Neurobehavioural Model.
